Senior User Interface Designer

Creative · Motivated · Skilled

I am an avid **User Interface Designer** & **Developer** passionate about transforming the landscape of the web. I've worked successfully with companies across the U.S. and the U.K. to create solid user experiences that work across all devices. I have experience **Mentoring** & **Managing** other designers within a team to provide design and user experience for a unified experience. I'm a designer that knows how to code!
